## Frequently Asked Questions About Premium Recycled Rubber Landscaping Mulch

**Dyna-Scape™** is a new line of mulch that is revolutionizing the entire landscape mulch category. Made from carefully recycled rubber, Dyna-Scape™ provides unequaled beauty, durability, weed control and moisture retention to landscapes and play areas. Available in seven different and appealing natural colors, and packaged in attractive 20 lb. bags or 1000 lb. supersacks, Dyna-Scape™ is excellent for use in landscapes and play areas. The following are frequently asked questions regarding this new and unique offering.

### Does Dyna-Scape™ rubber mulch have any steel content?

NO. Our manufacturing process extracts the wire, if any, by a series of magnets and is 100% visually inspected as well. In fact, Dyna-Scape™ is guaranteed to be 99.9% wire free.

### Will Dyna-Scape™ mulch blow or wash away?

NO. It stays put. Normal wind and rain will not effect the mulch.

### Are leaves and branches that may fall or blow onto a Dyna-Scape™ surface easy to clean up?

YES. When held at a safe distance away from the mulch, a leaf blower should easily remove most leaves and small branches.

### Will Dyna-Scape™ crumble or decompose or disintegrate?

NO. Dyna-Scape™ mulch is made from 100% recycled tire rubber. Tires are made of vulcanized rubber; the vulcanization process makes the rubber literally indestructible.

### Will Dyna-Scape™ hold water or create a sloppy/slippery play area?

NO. Dyna-Scape™ promotes almost instantaneous drainage, unlike other safety surfacing. Dyna-Scape™ allows for the use of play area in approximately 30 minutes after a normal rainfall.

### Is Dyna-Scape™ mulch toxic?

NO. Dyna-Scape™ uses only nontoxic colorant. If the mulch should accidentally be swallowed, test reports show that it will simply pass through the digestive system of both humans and animals.

### Does Dyna-Scape™ mulch smell?

NO. There may be some rubber odor present at the time of installation, but this odor will disappear shortly.

### What type of maintenance is required with Dyna-Scape™?

You may keep the surface area clean from debris, by lightly raking or using a leaf blower at a safe distance away, not to disturb mulch.

### Will Dyna-Scape™ stain clothing or the area where it is installed?

NO. Testing shows it will not stain and will not bleed when wet.

### Will mulch that finds its way into clothing melt in a clothes dryer?

NO. Most clothes dryers operate at less than 100 degrees F. Tire rubber melts at approximately 500° F.

### How does Dyna-Scape™ mulch compare to other products?

Dyna-Scape™ uses only the finest quality raw materials to manufacture our rubber mulch, therefore it needs no annual upgrading or replacement. Dyna-Scape™ is quite possibly the last mulch you will ever need.

### Is there a warranty on Dyna-Scape™ rubber mulch?

YES. DSM Landscape Products warrants its product for a 25-year

period on the rubber particles and for 5 years against total color loss.

### Does Dyna-Scape™ protect against injuries in play areas?

YES. Dyna-Scape™ provides a 7-foot fall height when installed to a minimum depth of 6 inches and maintained to that thickness. Dyna-Scape™ has been tested by an independent testing laboratory and certified to IPEMA (Intl. Play Equipment Manufacturers Assn.) standards (ASTM F1292-99) impact attenuation of surface systems. This certification may be viewed at [www.ipema.org](http://www.ipema.org). For further testing information, please let us know and we will send you a copy of actual testing data from Detroit Testing Laboratory, Inc.

*With tremendous product benefits, long warranties, low minimums and affordable pricing, Dyna-Scape™ is the rubber mulch for you! Call, fax, e-mail or visit [www.teamtotal.com](http://www.teamtotal.com) today for samples and pricing!*
